

WORKSHOP: QUESTIONS TO THE PARTNERS

1. What can I do to strengthen the InnMain network?

DUDLEY COLLEGE

1. Provide a greater range of exchange opportunities for staff and students from across the network
2. Work strategically with the network to identify new business opportunities
3. Introduce new members

CURIO

1. Introduce new members (schools and companies)
2. Sharing of knowledge
3. Participating at the International Technical Departments
4. To promote the network in my own organisation and at national meetings

LYCÉE NEWTON

1. What about the name of InnMain ? Is It attractive , representative ? Significant ? We don't care ? Maintenance is restrictive: Engineering
2. New european partners, outside Europe partners (through KA107)

SAVO

1. Sharing of knowledge > We can organise a master class in construction metal work + CNC machining with our World Skills Experts
2. Involvement of new departments (IT, media)

TEC

1. TEC can offer teacher training for InnMain partners
 - I. Drones (technology and flying)
 - II. Industry 4.0
 - III. Innovation in the classroom
 - IV. Refrigeration – has to be finally approved with other department
 - V. Technical Design
 - VI. Etc. see catalogue

We recommend all partners to apply for KA101, where course fee for 70 EUR per day beside the normal grant is given.

2. Provide knowledge about creating a knowledge center (Industry 4.0)
3. Provide knowledge about educational export in India / China

VALDORIO

1. Introduce new members due the fact we participate in others important networks (FARI – Scuola Centrale Bologna – Italy)
2. To involve good companies in trainship
 - for teachers: Cisco Academy
 - for students: Partners Companies (About 200)
3. Sharing our cross knowledge in distinct areas (not only in industrial ones): Technologies of Informations, Communications and Electronics Areas

XABEC

1. Collaborate with Organizational Secretariat
2. Participate in European project proposals KA1 & KA2
3. Search other possible partners, all over the world
4. Partnerships for NON EU Partners (Japan, SouthAmerica, Taiwán, Vietnam)
5. Master Centre in VET settled in Valencia (July), with teachers and students from the InnMain partners

KONYA

1. We can provide course specialists for new income area at mid-term break or summer holiday. They have different special areas such as telecommunication,cctv, satellite systems, digital electronic, power electronics, biomedical devices, embedded systems. We can do it for free, only cost of transportation and accommodations. Courses' income can use for partner who has an economical problem in InnMain Network.

2. What are your expectations from the network?

DUDLEY

1. To share knowledge and good practice from across Europe, particularly through exchange visits;
2. To develop a cross-Europe network that can provide training solutions to public and private sector organisations;
3. To work collaboratively to strengthen the capacity of our organizations;

MARKIEZAAT

1. Sharing of knowledge by the technical departments
2. Gain more knowledge of industry 4.0.
3. Good internships places for our students
4. Being part of international projects

LYCÉE NEWTON

1. To share practices , contents , ideas in our field of activities to improve our teaching (teachers workshop , platform wiki, partnership projects
2. To facilitate teachers and students mobilities

3. KA2 projects

SAVO

1. Sharing of knowledge in departments meeting.
2. Robotics, Industry 4.0, 3D > E+ KA2 project? / teacher education together funded by E+ KA1

TEC

1. To gain more knowledge about working abroad
2. Best practice about school management in Europe
3. Continued student and staff exchange
4. When present in other networks or seminars, bring back knowledge to InnMain
5. To be inspired

VALDORIO

1. To have more structural engagement on Erasmus mobilities
2. To have more engagement in long term internships
3. Sharing the Knowledge in the department meetings
4. Enhancing knowledge sharing in third countries
5. Implementation of projects with InnMain partners in third countries

XABEC

1. Strengthen International Technical Departments: projects, visits, experiences, etc.
2. Teachers making use of the wiki.
3. Make the "Corporate Social Responsibility" document a reality

KONYA

1. We should act on social media (fb, insta, wp etc.) for more sharing knowledge between network members. Thus, we can provide a faster and more effective communication of information flow.
2. We should share knowledge and experiences about new Technologies such as Internet of things(IoT), Industry 4.0, Artificial Intelligence(AI), etc. We, so society members need to focus on building ERASMUS + projects on new technologies. It is a great source of income for public schools that cannot have regular income like ours.

3. What are your expectations from the other partners?

DUDLEY

1. To have open and regular dialogue about any opportunities that arise;
2. To share knowledge and good practice, particularly through staff and student exchange visits;
3. To share new ideas, particularly around areas of technical and pedagogical expertise – perhaps through webinars?

MARKIEZAAT

1. Being present at the annual meeting
2. Participating in at least 1 International Technical Department
3. Sharing of new ideas

LYCÉE NEWTON

1. To provide the kind of ERAMUS charter they have (VET , ECHE)
2. To provide the field they propose for studies
3. To provide their possibilities in term of mobilities (numbers, period, companies..)
4. To be involved in a common project (I. W. S.)

SAVO

1. To start a regular student exchange with a partner / some partners (production technology)

TEC

1. Be active in the network – be present
2. Exchange of information, inspiration and cases that can help TEC developing our activities and student/staff environment
3. Management information. Info about solutions to the challenges in the vocational education in school and industry

VALDORIO

1. Sharing of new ideas
2. How do partners relate to companies in terms of internships or other collaborations
3. How to organize the partners data (those who want be part of), enhancing Pojects abroad.

XABEC

1. To share good practices in School Management
2. To be active in some ways
3. Commitment in the agreements adopted between partners

KONYA

1. Network partners, should have more act on social media accounts. Between members, there is no communication except e-mail.
2. Partners should build more EU projects. When building new projects, we should inform each other about the cooperation of projects. If we start working for new project on the september that we can organise more comfortable during preparing projects.

4. What other activities should InnMain be involved in?

DUDLEY

1. International projects
2. Knowledge sharing, particularly technical expertise – webinars?
3. Make links with non-European partners/networks (InnMain associate network?)

MARKIEZAAT

1. International projects
2. Being part of other international networks

LYCÉE NEWTON

1. KA2 Projects
2. Foreign employees or students training / Courses abroad , outside our network (Sanjeev and Christian)

SAVO

Student mobility

- International modules (calendar)
- A small project comprising virtual learning (to enhance internationalisation at home institution)

TEC

No answers

VALDORIO

1. To make the InnMain network known to international organizations: CEDEFOP, OIT/ILO..

XABEC

1. Projects and activities to improve soft, social and human skills
2. Education in Communication
3. Activities in order to make more attractive the Vocational Training studies

KONYA

1. We should build social responsibility projects with other networks. It can be more efficient for the quality and reliability of new cooperations with other social networks.
2. We can prepare knowledge or different competition between Innmain partners' students. (Give lesson in a education time on the internet and end of the course we can apply practical competition somewhere. (for example we can do it digital electronic lesson and finally make a dijital electronic circuit competition here for Innmain students.)

5. Who else can be involved in the InnMain network that can add some value?

DUDLEY

1. Associate members from other countries;
2. Employers/trade organisations;
3. Local authorities

KONYA

1. We need to find flashy social projects than catch other institutions or people attention.
2. It can be more effective to find financial and moral sponsors or partners.

MARKIEZAAT

1. New temporary members from Europe or outside Europe
2. Companies
3. Highschools

LYCÉE NEWTON

1. Companies especially for apprentices mobility , dual system.

SAVO

1. Education sales perspective?
2. Company representatives attending meetings? Sharing good practises with public sector employees (social and health care) has been a success

TEC

1. We could hire specialists - and share the cost
2. More universities or higher VET ?
3. Employers ?

VALDORIO

1. New members from other countries outside of europe
2. Employers/Companies
3. Universities

XABEC

1. Local, Regional, National and International Companies
2. Educational institutions from other counties outside Europe
