www.innmain.eu

Innmain is a network of educational institutions, companies, chambers of commerce and associations of entrepreneurs in the field of Maintenance and Building Installations, working together to foster innovation in education in Europe.

SERVING MAINTENANCE IN INDUSTRY WITH QUALITY EDUCATION, SKILLS AND TRAINING

Our Objective

To improve the quality of teachers and trainers involved in education and the quality of the educative programs.

European Projects

- Mobility programs for teachers, students and professionals
- Innovative programs
- Sharing good practices
- Actions to improve the image of maintenance studies

Activities

- Annual Conferences
- Cooperation with third national countries
- International meetings
- International monitoring conferences
- Advice to National Educational Bodies
- Networking
- Tailored courses

Structure

InnMain is structured by International Technical Departments. They are constituted by teachers from different schools who are interested in that particular area of knowledge. Each one has a Coordinator, who is the responsible person to promote activities for teachers and students. In this way projects, activities and the mobility of people are promoted within the network.

International Technical Departments:

- Automotive
- Electricity and Electronics
- Human factors and Social Skills
- HVAC, Refrigeration, Renewable energies and Efficiency energy use
- ICT
- Languages
- Mechatronics and Automatic installations
- Mobility of students
- Project management
- Relationship with companies
- School Management
- Welding and Mechanics
