The International Job Market

How can TEC prepare students / apprenticeship to the international job market?

- Make sure that the apprentice get knowlegde regarding differens culture – lige the different rules on the safety envoirment
- Offer lessons in language
- Incorporate innovation as an educational model
- Develop an international study environment

European network, which trains apprentices in Europe.

What can TESI gain by being a part of a European network that trains apprentices?

- Influence
- Knowledge transfer – we will learn and share experience in a formal network
- Attracting the best qualified young people to our company
