

## INNMAIN - PROJECT MANAGEMENT MEETING

Copenhagen, Denmark, May 18<sup>th</sup> 2016

### FINAL CONCLUSIONS

#### Participant institutions:

- |                            |                        |
|----------------------------|------------------------|
| 1. TEC                     | Copenhagen. Denmark    |
| 2. Lycée Isaac Newton      | Clichy. France         |
| 3. Dudley College          | Dudley. United Kingdom |
| 4. Izmit Vocational School | Izmit. Turkey          |
| 5. Xabec                   | Valencia. Spain        |

#### AGREEMENTS REGARDING THE INTERNATIONAL DEPARTMENT OF "PROJECT MANAGEMENT"

- 1. Constitution of the international department of project management.**  
All the attendants agree to go ahead with this International Department.
- 2. Frequency of the international meetings**  
We should meet once a year, preferably the first week of November: In this way, we can analyze the results of the last Erasmus+ call, and we can prepare the next one.
- 3. Regarding the place**  
We should go to a not expensive place.
- 4. Coordinator institution:**  
TEC offers to be the coordinating institution

#### General conclusions:

- This International Department can be very useful for institutions that have few people in International or have lack of information to prepare the application forms. We can support each other.
- Also this International Department can be a platform to prepare common future projects, taking into account the peculiarities of each particular institution.

#### THOUGHTS AND CONCLUSIONS

##### THE ORGANIZATION OF THE INTERNATIONAL DEPARTMENT

- Each institution makes a presentation about how they organize their international activities, and the structure of the International Department.
- We see that some partners have a good organization and support, but others are "surviving" with lack of people or budget

### **FINDING SINERGIES**

- Sanjeev Ohri makes a concrete proposal based on the principle of SCR: if we know the strengths and the weaknesses of each partner, we can support each other, and with good information about the aims, expectations and needs of each partner, we can take advantage for the implementation of the strategy of each institution.
- We discuss about the presentation. We agree to fill-in all the templates provided by Sanjeev and to introduce improvements before sending to all the partners.

### **WHERE TO FIND INFORMATION**

- Marie Beleyne and Mariamar Cervantes make a presentation about this topic.
- We agree to organize a special folder in the InnMain Intranet with links to websites where partners can find useful information.

### **COMMON ISSUES & CONCERNS**

- Recruitment of students
- Lack of Budget for mobility
- Different attitude between different National Agencies
- The necessity of language skills
- Dealing with unexpected student's problems...
- To have a VET Charter: very convenient!
- International is a cost... but also it is an investment. There is a different situation: in private institutions they need to balance the expenses; in public institutions, you need the budget to be approved before doing anything..
